Risk Disclosure Statement

I understand that the price of futures and options can and does fluctuate, and that any individual futures or options may experience downward movement, and may under some circumstances even become valueless. There is an inherent risk that losses may be incurred rather than profit made as a result of buying and selling futures and options.

The risk of loss in trading futures contracts or options is substantial. In some circumstances, I may sustain losses in excess of my initial margin funds. Placing contingent orders, such as “stop-loss” or “stop-limit” orders, will not necessarily avoid loss. Market conditions may make it impossible to execute such orders. I may be called upon at short notice to deposit additional margin funds. If the required funds are
